

# **Vocal Scholarship Auditions Requirements**

## **Part One: Solo**

All students must prepare two short contrasting solos or excerpts of their choice that best demonstrate their abilities. One should be a faster tempo and the other a slower tempo, with each solo being at most two to three minutes. Piano accompaniment will not be provided by Lutheran West, but a student can bring an accompanist with them if they choose to. Students will be evaluated on quality, pitch accuracy, breath control, dynamics, articulation, and general musicality of the performance.

## **Part Two: Scales**

All Students must perform 2 one-octave scales from memory, determined by the music director. The set of scales will be within a comfortable vocal range and may be performed at any tempo.

## **Part Three: Sight-Reading**

The director will present a musical excerpt on the day of the audition. The student will be given a few minutes to look over the excerpt and then will be asked to perform it to the best of their ability from beginning to conclusion.
